

IDT to Showcase Latest Technology Solutions at TECHNO-FRONTIER 2018

April 13, 2018

The semiconductor company will feature leading wireless power, sensing, and timing solutions at key Japanese trade show

SAN JOSE, Calif., April 13, 2018 /PRNewswire/ -- Integrated Device Technology, Inc. ([IDT](#)) (NASDAQ: IDTI) today detailed the advanced technology it will feature at TECHNO-FRONTIER 2018, one of Japan's most important technology shows. IDT representatives will showcase the company's industry-leading wireless power, sensing, and timing solutions, along with interactive technology demonstrations at the trade show from booth 6F-23, April 18 through 20.

The company will present live demonstrations of its wireless power and sensing technology, including the recent [Inductive Position Sensor](#) and [Humidity Sensor](#) families. The IDT solutions are ideal for markets ranging from automotive to portable and smart home devices.

"TECHNO-FRONTIER provides the ideal opportunity for us to show the latest IDT technology to existing and future Japanese customers, and this year we have some very exciting system solutions to share," said Kousuke Hazama, IDT's country manager in Japan. "Our sensing and wireless power demos will give attendees a clear picture of how these technologies can be integrated into cars, portable devices and industrial equipment, to deliver clearly differentiated products."

TECHNO-FRONTIER runs April 18 through 20 at the Makuhari Messe convention center outside Tokyo in Chiba prefecture. IDT will be at booth 6F-23.
