

IDT and Premier Farnell Announce New Franchise

February 5, 2018

New Global Distribution Partnership Will Deliver Industry-Leading Products and Engineering Support Community for Customers

SAN JOSE, Calif., Feb. 5, 2018 /PRNewswire/ -- Integrated Device Technology, Inc. (IDT) (NASDAQ: IDTI) together with Premier Farnell, The Development Distributor, today announced a partnership agreement for the worldwide distribution of IDT's market-leading RF, high-performance timing, memory interface, real-time interconnect, optical interconnect, wireless power and sensing solutions through all of the Premier Farnell companies. Premier Farnell operates as Farnell element14 in Europe, Newark element14 in North America and element14 in APAC.

Premier Farnell is a global technology leader with over 80 years' experience in the high-service distribution of technology products and solutions for electronic system design, production, maintenance and repair.

"This agreement with Premier Farnell is an example of IDT continuing to expand its product portfolio and extend its customer reach into broader markets while complementing its existing communications, automotive, industrial and consumer customer base," said Chris Alexandre, senior vice president global sales and marketing at IDT. "Premier Farnell's experience in the high technology service distribution business, broad customer base and award-winning element14 engineering community make them an ideal partner and we are excited to leverage their leadership position to accelerate IDT's new customer acquisition and growth in the broader market."

Simon Meadmore, Global Head of Semiconductors for Premier Farnell added, "As the Development Distributor, we seek to provide our customers with access to supplier ranges that enable them to get their products to market quickly. The addition of IDT's market-leading portfolio ranges from high-performance and full-featured radio frequency (RF) products through to serial switching devices and memory interface devices adds tremendous value and increased choice for our customers."
