

IDT Receives a 2018 Supply & Demand Chain Executive Green Supply Chain Award

December 11, 2018

SAN JOSE, Calif., Dec. 11, 2018 /PRNewswire/ -- Integrated Device Technology, Inc. (IDT) (NASDAQ: IDTI), today announced that Supply & Demand Chain Executive, the executive's user manual for successful supply and demand chain transformation, has selected IDT as a recipient of an SDCE Green Supply Chain Award for 2018.

The Green Supply Chain Award recognizes companies making green or sustainability a core part of their supply chain strategy, and are working to achieve measurable sustainability goals within their own operations and supply chains. The awards also recognize providers of supply chain solutions and services assisting their customers in achieving measurable sustainability goals.

This year's 10th-annual awards recognize small, mid-size and large enterprises that leveraged green practices and solutions to further drive sustainable improvements in their supply chain.

"IDT is honored to receive this award," said Sailesh Chittipeddi, executive vice president of global operation and chief technology officer of IDT. "Sustainability is an important value to us, and something we have increasingly ingrained into our IDT culture. Our supply chain team has done a tremendous job establishing, measuring, and achieving the sustainability goals we set for ourselves this year, and I am extremely proud of their efforts and contributions.

"This year's award recipients place a critical emphasis on green initiatives within their companies and supply chains," says John R. Yuva, editor for Supply & Demand Chain Executive. "Entries provide examples of innovative approaches and impressive metrics of sustainability programs."

"We congratulate this year's honorees for their commitment to sustainability and recognize their tremendous achievements," Yuva adds. "Our honorees serve as role models for supply chains globally to expand their reach and impact of green leadership."

About Supply & Demand Chain Executive
